## **Larimer Law Makes the List!**

Ranked #13 in the Western Finger Lakes Region

*Pittsford, NY— August 3, 2018* — Larimer Law, PLLC has been ranked #13 by the Rochester Business Journal in its annual publication of “The List,” which was released on July 27, 2018.

“Not bad for the youngest law firm on the list,” said Founder and Managing Partner, John Larimer, of the company he founded less than five (5) years ago. Larimer Law has grown significantly from its humble beginnings as a solo practice in a small office in 2013, to a law firm that currently employs over 40 staff attorneys in two cities in Upstate New York.

As the demand grows for attorneys well-versed in e-Discovery and Technology Assisted Reviews, Larimer Law continues to invest in its human capital and technological infrastructure to meet the needs of the corporate clients it serves. The company recently moved to its new location in the Basin Park office complex in Bushnell’s Basin, and continues to hire and train attorneys in both its Pittsford and Amherst offices to keep up with its increasing number of complex projects.

### **Grand Opening**

To celebrate its evolution, Larimer Law will host its Grand Opening at its new location in the Basin Park office complex on Thursday, September 27, 2018 at 5:00 PM. RSVP to Rachna Vas – [rvas@larimer-law.com](mailto:rvas@larimer-law.com).

Larimer Law provides best-in-class defensibility at best-in-market costs to reduce litigation costs for all aspects of the Discovery process, including e-Discovery, information management and data retention best practices and policies, managing and staffing document review projects of any size, consulting on cross-border litigation, international services and the latest technologies and techniques such as Technology Assisted Review and other tools for Advanced Analytics.
